7. Procedure and conditions of defining the team and individual championships

Overall team championship is determined on the basis of the least amount of places, taken by teams in all the sports events. In case of equality in total places, the higher place is awarded to the team having best result in the combat deployment.

Team championship in the sports events is determined on the basis of minimum total time. In case of time equality, the teams are awarded the same place (subsequent place is not awarded).

The team, which has not total number of scores, is awarded a place after the teams having full score. In case of equality of incomplete scores, the team is awarded a place to the team having the minimum score time.

Individual championship in sports events including combat deployment is determined according to the best result from two attempts. In case of results equality – according to the best total time of two attempts, and in case of equality amounts of time two attempts – according to the best result of the first attempt, further – athletes who started earlier. In the case of equal results in the fire relay highest place is awarded to the team which started earlier.

Double-event does not include in team result.

To determine winners in climbing with the hook ladder and overcoming 100-meters obstacle course is held semifinal and final race. The number of athletes in final and semifinal races is determined by the number of racetracks. The results of final and semifinal races do not include in team result.

Semifinal races are formed by the results of preliminary races as follows: 1st semifinal race – 5, 1, 4 and 8 results; 2nd semifinal race – 6, 2, 3 and 7. Final race is formed by the results of semifinal races as follows: 3, 1, 2 and 4.
