«The International Sport Federation of Firefighters and Rescuers»**

RESOLUTION

22 November 2018 year

№ 3

**city Saratov
(Russian Federation)**

**About the conduct and results of the
doping test athletes of the XIV World
Championship among men and V World
Championship among women**

Guided by the resolutions of the World Anti-Doping Codex (further - the Codex), the International Standard for Testing and Investigation, International Standard for Therapeutic Use Exemptions (further - the Standard) of the Prohibited List by WADA (further - List) and based on the decision of September 11, 2018 year, received at the joint Meeting of the Ground Jury, team officials and members of the Anti-Doping Disciplinary Committee unanimously defined the procedure and number of samples doping testing of athletes of the XIV World Championship among

men and V World Championship among women of fire-rescue sport (fire-applied) sport «Banska Bystrica 2018» (Slovak Republic).

In the following categories:

«Climbing with the hook ladder»- 7 people (4 samples by men and 3 samples by women).

- men (athletes) who showed the best results in the preliminary races and one athlete who took first place according to the results of the final race;

- women (athletes) after the final race, who took 1,2 and 3 places.

«Overcoming the 100-meter obstacle course»- 6 people (4 samples by men and 2 samples by women).

- men (athletes) the first three who showed the best results in the preliminary races and one athlete who took first place according to the results of the final race;

- women (athletes) after the final race, who took 1,2 and 3 places.

«Fire relay race 4*100 meters» - 7 people (4 samples by men and 3 samples by women).

- men (athletes) who showed the best three results from the first team and the athlete of the participating team, doping tests were chosen by lot;

- women (athletes) after the end of the final race, who took 1 and 2 places, in the case of transfer of the sample selected athlete from the team, who took 3rd place.

Competition doping tests (sampling of biological samples (urine) in the amount of - TWENTY samples were taken from 20 athletes from them: 12- athletes (men), 8- athletes (women), Republic of Belarus-6, Federal Republic of Germany - 1, Russian Federation - 8, Ukraine - 1, Czech Republic-4.

After hearing and discussing the report of the Disciplinary Committee of the International Anti-Doping Sport Federation of Firefighters and Rescuers Z. Nytra, XIX International Conference of Non-Profit Partnership «The International Sport Federation of Firefighters and Rescuers» **has decided:**

1. To approve the results of doping tests of athletes the XIV World Championship among men and V World Championship among women of fire-rescue (fire-applied) sport. Doping tests were selected by the commissioners of the anti-Doping Agency of the Slovak Republic in accordance with the rules of the World anti-doping organization (WADA). The samples were analysed by the Austrian Laboratory at Seibersdorf Labor GmbH, 2444 Seibersdorf, Austria.

All the tested doping tests are negative.

2. To consider the prevention of cases of doping in sport is a priority activity of the International Sport Federations and National fire and rescue (fire-applied) sport.

3. Mark the positive and coordinated the activities of the members of the Anti-Doping Disciplinary Committee Z. Nytra, M. Andrienko and V. Vetuh in organize and conduct drug testing of athletes the XIV World Championship among men and V World Championship among women of fire and rescue sport in a professional level.

4. Bring to the attention of managers, coaches and medical personnel, athletes, national teams results of doping tests the XIV World Championship among men and V World Championship among women of fire-rescue sport.

5. Since 2019 introduce at the World Championships among boys, juniors, girls and girl juniors in fire and rescue (fire-applied) sports doping testing for minors.
